Omni Sound

This unique feature **evenly distributes sound in all directions**, delivering an immersive audio experience to every listener, regardless of their location.

Benefits of using Omni Sound by Spottune

Increases customers' time spent in-store.

Increases the frequency of store visits.

Increases employees' performance in store.

Increases positive brand associations.

The speaker's patented design ensures clear, consistent sound across up to **75 square meters**—covering more area than traditional speakers and requiring **fewer speakers** compared to alternatives.

Plug & Play

The Plug & Play feature **works seamlessly with track lighting**, allowing speakers to be easily placed alongside lights.

The Omni Track speaker fits effortlessly into most existing infrastructure, **reducing installation costs** and eliminating bulky cables.

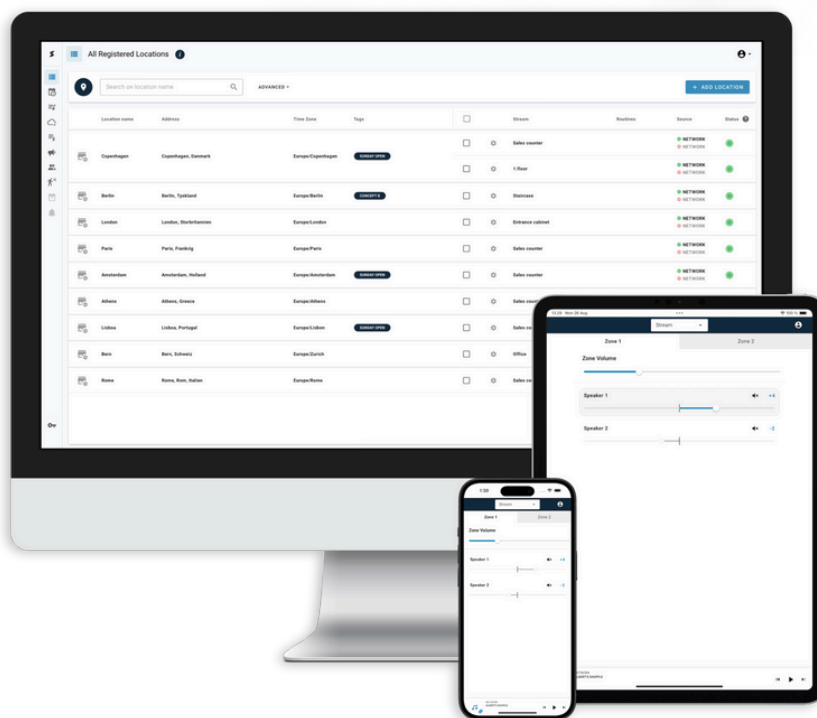

Once powered, the speakers automatically connect to the Stream, **ready to play music within minutes.**

Spottune Cloud

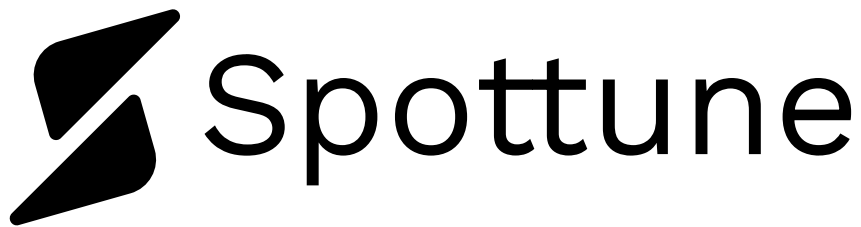

Easy audio management

Whether you have one or multiple stores, the Spottune cloud service provides you with an **online platform that ensures total audio control** from anywhere.

- Set routines
- Manage zones
- Adjust volume
- Create playlists
- Manage promotions and announcements

"Spottune was a game-changer. The cloud-based system gave us the centralized control we needed. With one click, our headquarter can update music across all stores, preventing inconsistencies and harmonizing the brand experience and liberating time for the staff in all our stores." - Lars Lyse Hansen, CEO of Bolia
